

TIG PEN

- A manual welding wire feeder
- Wire supply controlled by small feed through wheel
- For wire 1 mm to 3.2 mm
- Comfortable, lightweight and compact
- Creates better quality welds
- Improves working ergonomics

Part No	Description
TP	Tig pen

150 AMP - 3 PIECE TORCH SET UP

TIGMASTER®

200 AMP - 3 PIECE TORCH SET UP

TIGMASTER®

TIG FINGER

The Tig Finger is great for:

- Tig welding aluminium castings that get really hot
- Pipe welding with tig especially small bore stainless steel pipe
- The Tig Finger heatshield is even good for propping against the metal when you use a cutting torch.

Part Number	Description
TF	Tig Finger
TFXL	Tig Finger XL (covers 2 fingers)
AFTF	Arcforce single finger

The Tig Finger Heat Shield lets you prop right next to your weld as it slides along smoothly. With a Tig Finger, you wont have to sacrifice burned fingers. It is made from a really smooth heat resistant material.

SWITCH ASSEMBLIES

Momentary switch with paddle activator and saddle. Cable tie attachment.

Part No	Description
SW-1P	Paddle Switch

Momentary round switch.

Part No	Description
PXSW1	Bulb Switch

On/Off switch.

Part No	Description
SW-2	Tig Switch On/Off

Momentary joystick switch.

Part No	Description
SW-1J	Tig Joy Stick Switch

SUPER FLEX POWER CABLES

Designed for high flexibility and durability.

The braided outer layer provides a protective barrier and enhances flexibility for applications that require frequent bending and movement.

Made with rubber & nylon overbraid for protection.

Male fittings on both ends

2310-1853SF - 200amp 12ft Super flex cable

2310-1854SF - 200amp 25ft Super flex cable

57Y01SF - 150amp 12ft Super flex cable

57Y03-SF - 150amp 25ft Super flex cable

Ready to go Tig Kits
Suit #9/20 & 17/18/26 Torches

TIG KITS

14 Piece Alumina Champagne Nozzle Kit

#12, 14, 16, 24 Nozzles
heat shield, wedge collet,
gas lens & screen.

9 & 20 Series - **AFCNK920**
17, 18 & 26 Series - **AFCNK171826**

26 Piece Clear Champagne Nozzle Kit

#12, 14, 16, 24 Nozzles, heat shield,
wedge collet, gas lens & screen & adaptor,
o-rings & outer guard.

9 & 20 Series - **AFCCNK920**
17, 18 & 26 Series - **AFCCNK171826**

20 Piece Alumina & Clear Standard & Champagne Nozzle Kit

A range of standard collet bodies & gas lens.
To run both Alumina & clear nozzles, and champagne
nozzle in a single kit.

9 & 20 Series - **AFNK20PC-920**
17, 18 & 26 Series - **AFNK20PC-171826**

TIGMASTER[®] SILICON NITRIDE NOZZLES

- Withstand high heat applications
- High amperage/High reflective heat applications
- Last longer than alumina cup
- Resists cracking due to thermal shock

Silicon Nitride Nozzles Suits 17/18/26 Series

10N49SN	8 mm (5/16")
10N48SN	10 mm (3/8")
10N47SN	11 mm (7/16")
10N46SN	12.7 mm (1/2")
10N45SN	16 mm (5/8")

Silicon Nitride Gas Lens Nozzles Small Suits 9/20/25/SW320 Series

53N58SN	6 mm (1/4")
53N59SN	8 mm (5/16")
53N60SN	10 mm (3/8")
53N61SN	11 mm (7/6")
53N61SSN	12.5 mm (1/2")

Silicon Nitride Gas Lens Nozzles Medium Suits 17/18/26 Series

54N17SN	8 mm (5/16")
54N16SN	9.5 mm (3/8")
54N15SN	11 mm (7/16")
54N14SN	12.7 mm (1/2")

Silicon Nitride Gas Lens Nozzles Large Suits 17/18/26 Series

57N75SN	10 mm (3/8")
57N74SN	12.5 mm (1/2")

CHEMICAL SHARPENER FOR TUNGSTEN ELECTRODES

PC16CS

A chemical sharpener for tungsten electrodes providing as many as 500 sharpenings without having to leave the work area.

Extends the life points 2 to 4 times.
Produces the perfect point every time.
142 gram jar

Chemically sharpens tungsten electrode without grinding, splintering, flat spots or ridges.

Grinding is eliminated completely, a plus factor since grinding can cause scratching, chipping or splintering of the tungsten.
Chemical Sharpener will not contaminate the electrode nor the weld area.

How to use:

Pointing tungsten using Tig torch as heat source. Extend tungsten stick out approx 1" (25.4mm) beyond cup. Short out tungsten against clamp or workpiece until end glows cherry red, approx. 3/8" (10mm) up from tip. Quickly immerse the heated tip approx. 1/4" (6mm) deep into the Chemical sharpener repeatedly until desired point is formed. If desired point is not yet formed, quickly reimmerse tungsten into the Chemical sharpener. If reaction does not restart, repeat procedure.

WeldTec®

WATER COOLER

WeldTec's C20 water cooler is designed to give reliable, highly efficient performance.

It's compact yet durable. Made with a rust free stainless steel tank using industry proven components.

Easy to use and easy to maintain for long trouble free service.

DESIGNED FOR TIG • MIG • PLASMA

- Stainless Steel 7.5l tank
- Reliable Self-Priming Bronze Pump
- Visible Flow Indicator
- Fan Cooled 18 Loop Copper Tube Radiator
- Standard 5/8-18 LH Female Torch Connections

Made in USA

TIGMASTER® CABLE COVERS

Double stitching of the closure to ensure long life.
Cable covers are fused to resist fraying and ty-straps are provided to secure the cable cover to the torch handle.

The non-conductive zipper/velcro closure allows installation of the cable cover without removing the torch from the welding machine. The non-conductive zipper will not conduct "HF" current and is protected from hot metal contact by the overlap flap construction. Velcro closure is not affected by burn or melt spots.
